

Good afternoon,

My name is Supri Lugina. I am 27 years old and a fresh graduate in Informatics Engineering. I am interested in applying for the Test and Validation Technician Department at CATIB.

Although I am a fresh graduate, I have 4 years of experience in manufacturing, including production operations, spare parts control, and technical support. I am familiar with factory workflows, reporting, continuous improvement, and problem-solving on the production floor.

I have attached my updated CV and am available to join immediately.

Please find the link to my CV below:

Thank you for your time and consideration.

Best regards,

Supri Lugina
